

Air Quality Index for Spokane County by year, 2013-2017						
AQI Value Category/Color Code	Cautionary Health Statements	2017 days in each category	2016 days in each category	2015* days in each category	2014 days in each category	2013 days in each category
0-50 Good/Green	Air quality is considered satisfactory, and air pollution poses little or no risk.	236	273	258	284	241
51-100 Moderate/Yellow	Air quality is acceptable; however, for certain pollutants there may be a moderate health concern for a very small number of people who are unusually sensitive to air pollution.	111	93	90	80	121
101-150 Unhealthy for Sensitive Groups/Orange	People with heart and lung disease, older adults, and children are at greater risk from air pollution. The general public is not likely to be affected.	11	0	11	1	2
151-200 Unhealthy/Red	Everyone may begin to experience health effects; members of sensitive groups may experience more serious health effects.	4	0	5	0	1
201-300 Very Unhealthy	Health warnings of emergency conditions. The entire population is more likely to be affected.	3	0	0	0	0
301-500+ Hazardous	Health alert: everyone may experience more serious health effects.	0	0	0	0	0
