

service, public or private hauling services, energy recovery or incineration facility, public or private solid waste drop box, transfer station, or landfill.

16. Other Requirements.

All outdoor burning must comply with all other applicable local, state, and federal requirements.

G. Unlawful Outdoor Burning.

- a. Failure of any person to comply with Chapter 70.94 RCW, Chapter 173-425 WAC, this Section, or permit conditions, shall be unlawful and may result in criminal or civil enforcement action taken, including penalties.
- b. Unlawful burning may result in any outdoor burning permit being permanently rescinded. This applies to written permits, general permits (permits by rule), and electronic and verbal permits. Once rescinded, approval from SRCAA must be obtained to burn again. Applicable fees for a new permit must be paid pursuant to Section 10.13.

SECTION 6.02 VISIBLE EMISSIONS

A. It shall be unlawful for any person to cause or allow the emission of air contaminant from any emission point which equals or exceeds twenty percent opacity for an aggregate of more than three (3) minutes in any one-hour period except:

1. When the emissions occur due to soot blowing/grate cleaning and the operator can demonstrate that the emissions will not equal or exceed twenty percent opacity for more than fifteen minutes in any eight consecutive hours. The intent of this provision is to permit the soot blowing and grate cleaning necessary to the operation of boiler facilities. As such, this practice, except for testing and trouble shooting, is to be scheduled for the same approximate times each day and the Authority shall be advised of the schedule.
2. When the presence of uncombined water is the only reason for the failure of an emission to meet the requirements of this section. The burden of proof to establish the quantity of uncombined water in the emission shall lie with the owner or operator who is seeking to bring the emission from his equipment or process within the requirements of Section 6.02A.
3. When otherwise specifically permitted by Article VIII, Section 8.05 of this Regulation (i.e. solid fuel burning devices).

- B. The opacity of an air contaminant shall be measured at the point of its emission, except when the point of emission cannot be readily observed, it may be measured at an observable point on the plume nearest the point of emission.
- C. Visible emissions shall be determined by using Ecology Test Method 9A.
- D. The emission limits of this section shall apply to each emission point regardless of the number of emissions units connected to a common stack.

SECTION 6.03 INCINERATOR BURNING AND INCINERATION HOURS

- A. The Authority, implements and enforces WAC 173-400-050, in Spokane County in addition to Parts B through E of this Section. The more stringent requirement in WAC 173-400-050 or Section 6.03 supersedes the lesser.
- B. It shall be unlawful for any person to burn any combustible refuse in any incinerator within the jurisdiction of this Authority except in an approved multiple-chambered incinerator or in equipment found by the Control Officer in advance of such use to be equally effective for the purpose of air pollution control. The Control Officer may require the installation of additional control apparatus on an incinerator of approved design, if he finds that it is not effectively controlling air pollution emissions or is the cause of legitimate complaints.
- C. It shall be unlawful for any person to cause or allow the operation of an incinerator at any time other than daylight hours, except with the approval of the Control Officer.
- D. Approval of the Control Officer for the operation of an incinerator at other than daylight hours may be granted upon the submission of a written request stating:
 - 1. Full name and address of the applicant.
 - 2. Location of the incinerator.
 - 3. A description of the incinerator and its control equipment.
 - 4. Good cause for issuance of such approval.
 - 5. The hours, other than daylight hours, during which the applicant seeks to operate the equipment.
 - 6. The length of time for which the exception is sought.
- E. No one shall install or operate an "Air Curtain Incinerator" or "Wigwam Burner" within the Authority's jurisdiction.
