Application Supplemental Questions

Incomplete responses, including responses that state "see resume," may remove you from further consideration.

1. Please explain how you meet the minimum qualifications for this position. Include your education, relevant work experience, and a brief description of your primary duties.

   Bachelor's degree in Environmental Studies, Environmental Science, Environmental Planning, Environmental Policy, Engineering, physical or natural science, or a closely related field; **AND,** One year of experience in regulatory compliance, inspection, investigation, public or adult education or similar experience.

   OR,

   Five years of experience in regulatory compliance, inspection, investigation, public or adult education or similar experience.

   OR,

   An equivalent combination of college education and/or experience as stated above.

2. Describe your experience working with the public, including at least one example involving a contentious situation. What was your role, what de-escalation techniques did you use, and what was the final outcome?

3. Describe your experience explaining technical, environmental, safety, or regulatory information to a non-technical audience, either orally or in writing. Please provide a specific example.

4. Describe a time when you had to manage multiple assignments, deadlines, or priorities at the same time. How did you decide what to do first, and how did you keep track of your work?

5. Describe your experience working independently with limited direct supervision. Include an example of when you had to make decisions, solve problems, or utilize digital

field-data tools to document your work while operating away from your supervisor or team

6. Describe your experience working in industrial, commercial, construction, outdoor, or field-based settings. Include any experience working independently in the field, traveling between sites, documenting observations, or interacting with business owners, contractors, or the public.
