

Asbestos & Demo Service Providers

A MESSAGE FROM SPOKANE REGIONAL CLEAN AIR AGENCY

BACKGROUND

We receive requests for names of companies that conduct asbestos surveys, abatement/removal, training and demolition work. Below are companies that have contacted us to be added to the list. The listing is not an endorsement by Spokane Clean Air. It is up to you to research a company's credentials prior to hiring them.

White Water Inspections	x					208.352.0028	whitewaterinspections.com

Research companies prior to hiring

The Washington State Department of Labor and Industries has a helpful publication, "What you should know about hiring a contractor, remodeler, or handyman" available online: lni.wa.gov/forms-publications/F625-084-000.pdf

In general, be wary of inspectors or contractors who:

- Offer a special price only if you sign today or use other high pressure sales techniques
- Accept only cash and/or require large deposits
- Don't provide a written estimate or provide an estimate that is incomplete
- Want to work on weekends, evenings
- Give you an offer that sounds too good to be true

Asbestos Testing labs

Asbestos surveys include bulk testing to determine if asbestos is present. Samples must be analyzed by a National Voluntary Laboratory Accreditation Program accredited laboratory. The National Institute for Stan-

dards and Technology (NIST) provides a directory for verifying the NVLAP accreditation status:

https://www-s.nist.gov/niws/index.cfm?event=directory_search#no-back Select the 'Search Directory' option.

There is one Spokane-area asbestos sampling lab: Mountain Laboratories, 509-922-1365.

You can also conduct your own search for accredited sampling laboratories in other areas of Washington and beyond. The state Department of Ecology has an on-line laboratory search (<https://apps.ecology.wa.gov/laboratorysearch/SearchAnalyte.aspx>) for laboratories capable of asbestos analysis.

Other resources

A searchable database of violation histories is available at spokaneCleanAir.org/about/civil-penalties/

Other publications that may be helpful:
