## Spokane-area Hazardous Waste Service Providers List

Some businesses regulated by Spokane Regional Clean Air Agency (Spokane Clean Air) request referrals to companies that provide hazardous waste services. Below is a list Spokane Clean Air has compiled of regional hazardous waste service providers. It is up to each business to research a company's credentials before hiring them.

Spokane Clean Air does not recommend specific companies, whether they appear on this list or not. You may find additional companies and contact information in the hazardous waste category in the Yellow Pages or by searching online. Additions to this document are made by request.

### Resources

Contact your local city/county solid waste department for information on business assistance programs, including:

- business hazardous waste drop off,
- waste audits, and
- informational literature.

Hazards waste reduction assistance: The Washington State Department of Ecology can help businesses manage, reduce or eliminate dangerous waste. Call (509) 329-3400 and ask to speak with a toxic reduction specialist.

Online directory: The Spokane Waste Directory ([www.spokanewastedirectory.org](http://www.spokanewastedirectory.org)) is a interactive online database that helps small businesses and residents connect with vendors that are available to safely dispose, recycle or reuse their wastes.
