

Asbestos & Demo Service Providers

A MESSAGE FROM THE SPOKANE REGIONAL CLEAN AIR AGENCY

BACKGROUND

We receive many requests for names of companies that conduct asbestos surveys, abatement/removal, training and demolition work. Below are companies that have requested to be on this list, which is not an endorsement by Spokane Clean Air. It is up to you to research a company's credentials prior to hiring them.

Research a company's credentials prior to hiring

The Washington State Department of Labor and Industries has **an informative webpage on Protecting your Home by hiring registered contractors:**

<https://lni.wa.gov/licensing-permits/contractors/hiring-acontractor/protect-my-home>

If you are hiring someone to perform an asbestos survey and/or remove asbestos, be sure to read *Need an Asbestos Survey?* and *Need Asbestos Removed?* fact sheets available at www.SpokaneCleanAir.org under asbestos, publications.

A searchable database of violation/penalty histories is available at www.SpokaneCleanAir.org.

Local asbestos testing lab

There is one Spokane-area asbestos sampling lab that we are aware of:

Mountain Laboratories, 509-922-1365

You can also conduct your own search for accredited sampling laboratories in other areas of Washington and beyond.

In general, be wary of inspectors or contractors who:

- Offer a special price only if you sign today or use other high pressure sales techniques
- Accept only cash and/or require large deposits
- Don't provide a written estimate or provide an estimate that is incomplete
- Want to do most of their work on weekends, after-hours
- Give you an offer that sounds too good to be true
